Ralph and Daniela Klose are German authors and long-term collaborative partners in the fields of neuroscience, psychology, and consciousness research. Ralph is a retired neuropsychologist with over three decades of clinical and academic experience, and Daniela is a medical writer and translator specializing in neuropsychology and transpersonal psychology.

They write under their own names, connecting scientific expertise with years of hospice and end-of-life care experience to explore near-death experiences and liminal states of consciousness.

Praise

This treasure of a book is a balm for the soul, offering nostalgic glimpses of the world from which we came and to which we will return. Accounts of children's near-death experiences, interwoven with thoughtful prompts for reflection, provide a taste of a state of being long forgotten yet somehow deeply familiar. With language that is at once scientific and poetic — and phrases that occasionally defy logic yet still resonate as truth — the authors have given words to that which normally can't be articulated. Rather than a "must-read," *Where the Light Begins* is a "must experience." I was deeply moved and utterly captivated.

Where the Light Begins

Stories of Near-Death Experiences and After-Death Communications by Children and How They Experience Them Differently Than Adults

Daniela Klose and Ralph Klose

Description

I came back into a world that no longer fits me.

Where the Light Begins explores one of the most life-altering yet profound frontiers of human experience: children's near-death experiences.

When children come close to death, some return with memories that defy easy explanation. They often describe a light that feels like home, a presence without form, and connection beyond language. Their words are simple and expressed with calm certainty. They do not speculate. They *remember*.

Based on real-life cases, hospice encounters, and years of listening to children and families, this book offers a rare and deeply human, child-centered perspective within near-death research. Each story is told with warmth and care, followed by interdisciplinary commentary and reflection drawn from psychology, neuroscience, and consciousness studies.

Rather than attempting to prove or disprove the existence of an afterlife, *Where the Light Begins* poses a more compelling question: What do these experiences reveal about the nature of consciousness itself?

Time and again, the children who return experience a shift in perception that remains long after the medical crisis has passed. Fear softens. Compassion deepens. Identity expands.

Written in thoughtful and accessible language, this book provides reflections without dogma and wonder without sensationalism. It gently invites readers to approach the topic thoughtfully and with an open mind, offering comfort, insight, and a sense of connection.

At its heart, this is not a book about dying. It is a book about the boundaries of life and the possibility that children, in their clarity and sincerity, may be among our most honest guides to the deeper dimensions of being.

The Burning Ground

One Woman's Journey to Reclaim Her Soul and Ignite Her Inner Fire

Celinne Da Costa

Book Description

Celinne Da Costa left behind her prestigious job in New York, the overpriced cocktails at the trendiest bars, the relentless hustle for the next best thing, and followed a longing she couldn't explain. For nine months, she couch-surfed her way around the world, allowing strangers to become her mirrors and trading uncertainty for trust.

The Burning Ground is what she found on the other side. It is a raw account of what it means to be cracked open and reshaped by something greater than material wealth, societal expectations, or personal ambition.

Walking her own hero's journey helped Celinne realize that our story is not the ultimate truth of who we are. It is an imperfect map that marks the territory of our soul's curriculum, holding our beliefs, memories, fears, and hopes while continually pointing us back to the patterns we've been repeating, the doubts we're ready to release, and the narratives waiting for us to rewrite.

If you've been holding it all together on the outside while aching for something more true within, this book is your invitation. Utilizing story and provoking soul inquiry prompts, it is a companion for the woman ready to hear her own truth, reclaim what she left behind, and begin again... on her own terms.

The burning ground is waiting. It will ask everything of you—and give you yourself in return.

Who will you be when you finally step into the fire?

An intimately personal and intensely relatable story of a suburban hockey mom, wife, and clinical psychologist, who despite appearing to have it all, was slowly, achingly dying from her own pathologies. Janis Harper is a former adjunct English professor turned expressive arts therapist, as well as a writer, singer-songwriter, and actor. Her lifelong passions for the arts, metaphysics, spirituality, and philosophy come together in *Jonas and the Mountain*.

Although she has published mainly nonfiction, she considers this novel to be the truest work she's ever written.

Jonas and the Mountain

A Metaphysical Love Story

Janis Harper

Description

We are always seeking ourselves.

An eastern mystic, a western psychic, and a broken man who falls in love with them both at a holy, magnetic mountain. More than an unusual love story, *Jonas and the Mountain* is a quest for the deepest truth, an excursion into the nature of reality.

Jonas has been living a half-life since he lost his marriage, his college teaching position, and his best friend all at once. In his darkest moment, he hears a voice in his head, and strange poems start to come to him. Curious and open to exploration, he joins a friend who is traveling to Mt. Arunachala in South India. There Jonas meets the guru D, who shows him a direct path to enlightenment, and Anamika, an oddly familiar woman who explains the voice and poems and reveals yet another reality of multiple dimensions and partner selves. Jonas seeks to reconcile D's and Anamika's philosophies to find what is true with a capital "T," as he struggles to resolve the pain in his past and the surprising ways it appears in his present.

This is a journey into the heart of it all.

Praise

An enchanting odyssey into longing and love-for one's beloved teacher, one's soul mate, and ultimately, one's Self. Accompany Jonas as he climbs his spiritual summit and inspires you to do the same. --**Gina Mazza**, author of *Everything Matters, Nothing Matters*

Jonas and the Mountain is a deeply reassuring book. In clear, often crystalline prose, Janis Harper chronicles the lives of both seeker and guru. - Jon Hokmah, an empathetic psychotherapist who comes to accept the fact that he became a therapist because of his own problems.
- George Dingfelder, a stressed-out Jewish physician with a name longer than his lean body, a nervous smile, photographic memory, and a tendency to talk too much and fantasize even more.
- Carmine Birsamatto, an Italian crime boss who doesn't deny he's a racketeer but makes it clear he's not a thug. With charming manners and a soft spot for his grandchildren, he feels a deep conflict over the nature of his business.

Radical Remembering

*An Unlearning of Everything You Know About
God, Relationships, and Being Human*

Lindsay Reiner

Description

What if everything you were taught about God, relationships, and yourself is keeping you stuck?

You didn't become who you are by accident. You were shaped by stories—stories about yourself, about love, about God, about worth, and about the life that might be possible for you.

Over time, you subconsciously learned to perform and shapeshifted to survive. But somewhere along the way, you lost the thread of who you actually are.

Radical Remembering is an unflinching invitation to unlearn the narratives running your life. Through spiritual insight, psychological clarity, and lived practice, Lindsay Reiner guides you to bravely examine the beliefs you've formed in childhood and reinforced through relationships, to expose the subtle ways you betray yourself to belong.

Turn inward to confront the messy and beautiful aspects of being human and experience a radical return to sovereignty—not through dogma or rules, but through alignment with your truth.

This is where spirit meets street. Learn to catch your thoughts before they spiral, and anchor into your future self when the present feels muddy. Discover how to show up in relationships as a mirror, rather than a martyr, and become the very love you've been seeking.

Utilizing straight talk and practical guidance, *Radical Remembering* is written for those who feel disillusioned by religion, exhausted by the healing culture, and are ready to live from a place of freedom, joy, and inner peace.

Beneath your conditioning is someone untouched and powerful. This is the map to find your way back.

Dr. Joanna Kujawa

Alien Goddess

UFOs, AI, and the Goddesses of Ascension

Dr. Joanna Kujawa

Description

What if the beings we call “aliens” are not invaders from other worlds, but messengers from higher realms of consciousness, warning us against the dead-end path we are currently racing toward? What if the true threat to humanity is not an alien invasion, but rather our surrender to machines? And what if the antidote to both challenges resides not in technology, but in wisdom we abandoned long ago?

Alien Goddess enters this urgent conversation with a perspective no one else is offering. Drawing on contemporary accounts of contact phenomena, esoteric texts, and ancient mythologies, it asks what happens when a civilization replaces the sacred with the synthetic. Who becomes the architect of human destiny when the soul is written out of the equation?

Part I —The Messengers: UFOs investigates the possibility that UFO phenomena are visitations from consciousness realms within the liminal spaces of multidimensional realities. It explores the pattern of feminine presences in contact experiences, connecting Marian apparitions, abductions, and UFO encounters through the shared thread of warning and a call to awaken.

Part II —The Message: AI critiques the promises of transhumanism and artificial intelligence (AI), exposing the confusion between artificial experiences and true spiritual evolution. This section dismantles the seductive myth of eternal life through machines, challenges the manipulation of consciousness through technological means, and cautions against surrendering to the belief in AI’s spiritual superiority.

Part III —The Goddesses of Ascension offers an alternative in the initiatory wisdom of Goddess traditions. By deciphering the secret teachings encoded in the mythology of Inanna, the Eleusinian Mysteries, The Gospel of Mary Magdalene, and Pistis Sophia, *Alien Goddess* reveals these ancient stories are our blueprints for human flourishing, rooted in intuition and a remembrance of our inner greatness and spiritual sovereignty.

At a moment when humanity stands at a crossroads between mechanization and awakening, *Alien Goddess* is both a warning and a map. It challenges the technological trance and calls readers back to the deepest sources of wisdom, the ones that honor life, spirit, and the living intelligence of the cosmos.

Dr Joanna is a scholar, spiritual detective and the author of *Alien Goddess: UFOs, AI, and the Goddesses of Ascension* and *The Other Goddess: Mary Magdalene and the Goddesses of Eros and Secret Knowledge*. She received her BA and MA from the Pontifical Institute for Medieval Studies at the University of Toronto, Canada, and her PhD from Monash University, Melbourne, Australia. As an active academic for over 20 years, she uses her scholarly training to investigate topics other academics often pass over. She is on the editorial board of the *International Journal of Goddess Studies*.

The Way of Inanna

A Heroine's Guide to Living Unapologetically

Seana Zelazo

Description

Myth Made Manifest

Over 4000 years ago in ancient Sumer, some of the first mythographers inscribed the stories and myths of the Goddess Inanna on clay tablets in cuneiform. These incredible findings were unearthed, and the fragments were painstakingly pieced together and translated.

What they discovered were the ways Inanna was heralded as a goddess who embodies polarities: impatient and deliberate, an attentive lover and fierce warrior, connected to fertility as well as death-making her an accessible, relatable, and inspiring representation of the Divine Feminine as she stands in her power and multidimensionality. The Way of Inanna is a field guide to heart-centered living through the wisdom of the Sumerian Goddess of Love.

Each chapter deconstructs sacred narratives in which the Goddess navigates the seven gates of her soul's journey from awakening to ascension. More than a simple retelling, the book is myth made manifest in which Inanna becomes a means to accessing our own ascension and alchemical magic within our modern, contemporary context.

Praise

The Way of Inanna is a wonderful summation of the myths of Inanna and a how-to guidebook for living her mysteries. As Zelazo weaves these myths she illuminates the way forward for all of us. -**William Henry**, ascension scholar, art historian, and author

The Other Goddess

Mary Magdalene and the Goddesses of Eros and Secret Knowledge

Dr. Joanna Kujawa

Description

Is there a lineage of goddesses that claims the evolutionary power of female sexuality? And if so, why were they pushed to the shadows and demeaned as harlots? Was Mary Magdalene one of them, and what were her teachings?

Dr. Joanna Kujawa argues that in the process of recovering the healing power of the Goddess we have focused solely on the mother archetype and left out the other Goddess, who is often represented in mythical, historical, and Gnostic sources as wise, mysterious, and in the possession of the healing power of Eros.

Learn about Mary Magdalene's portrayal in the gnostic gospels as a teacher in her own right and Jesus' intimate partner, the possibility of her life as an alchemist in Egypt, and her last years in Southern France. Find out if Mary Magdalene was the same person as Mary the Prophetess of Egypt and her connection to the mysterious Cathars, Black Madonnas, and Knights Templar.

Whether looking at Mary Magdalene, Sophia, Aphrodite, Inanna, Hathor, Isis, or the goddesses of esoteric Hinduism, Dr. Kujawa finds the archetype of The Other Goddess-the bearer of the mysteries of sexual alchemy that ends the division between sexuality and spirituality.

Praise

Dr. Kujawa presents a very compelling, intelligent, well-researched account of goddesses and goddess energy that rises far above any typical discussion on the subject. Her work fundamentally transforms knowledge about who we are and who we might become if we open our eyes, our minds, and our hearts. This is essential reading for anyone interested in new femininity and masculinity, exploring ancient archetypes, and deepening spiritual development.

Remembering Self

*Seasons of the Soul Rediscovered Through
Mystical Experience and Depth Psychology*

Kenneth R. Lakritz, PhD

Description

A unique exploration of the human psyche and the journey toward psychospiritual unity, *Remembering Self* covers the mind-body-spirit realm as well as personal development, psychology, spirituality, midlife, eldering, and death, uniquely weaving together the mystery of mystical spirituality, the depth of Jungian Psychoanalysis, and the complexity of attachment theory.

Broken into sections that follow the “four seasons of life” through which the soul evolves, this book details the tasks, responsibilities, and development necessary to integrate and move through each stage. Each season represents both a universal, transcendent perspective and an immanent, personal reflection through the voice of Shemah, a character recounting his life as he nears death under the guidance of Cornelius, a wise figure representing the essence of Self. Although Shemah is a fictional character, his story is an amalgam of Lakritz’s clinical patients over decades of practice.

In whatever season of re-membling readers find themselves, this book will help light their way toward a fuller awareness and expression of the Self.

Praise

Remembering Self has many unexpected messages. In a world which seems to be drowning in nonsense of its own making, leaving many struggling with confusion about death, dying and the hereafter, *Remembering Self* will surely be a wondrous and welcome surprise.
— Leonard M. Zunin, MD, Psychiatrist, Author & Artist

This text is a fantastic resource for mental health professionals, educators, and basically anyone navigating the maze of the human mind and spirit.

Interspirituality

The Heritage

Opening Message: His Holiness the 14th Dalai Lama
Foreword: Matthew Fox

Description

INTERSPIRITUALITY: THE HERITAGE brings together more than 100 global contributors to explore the roots, emergence, and meaning of the interspiritual experience—a dynamic convergence of the world's wisdom traditions grounded in shared values of compassion, justice, unity, and love. It, along with *Interspirituality: The Future*, forms a historic two-volume set.

Appearing on the 25th anniversary of Br. Wayne Teasdale's seminal work, *The Mystic Heart*, this volume honors his prophetic vision of Interspirituality as "the common heritage of humankind's spiritual wisdom" and "the age we are now entering."

Building on over a century of interfaith engagement, Volume 1 traces the evolution of this movement from 1999–2015, illuminating how people from diverse backgrounds are bridging traditions and rediscovering the sacred through one another.

With newly written articles, selected excerpts, abridgements, essays, and historical reflections, *The Heritage* captures the formative years of Interspirituality. The volume includes foundational benchmarks such as the Snowmass Dialogues, the Monastic Interreligious Dialogue, the Interspiritual Dialogue, Spiritual Paths, One Spirit and Satyana networks, the New Monasticism, and many more initiatives, organizations, and events.

Framing the volume are H.H. the 14th Dalai Lama and Matthew Fox, alongside a diverse array of mystics, activists, educators, and spiritual leaders committed to building a "world that works for all." Contributors speak to the spiritual dimensions of partnership consciousness, peace, justice, economic equity, sacred activism, ecological healing, and our evolutionary future.

The Future

Opening Message: His Holiness the 14th Dalai Lama
Afterword: Ken Wilber

Description

INTERSPIRITUALITY: THE FUTURE continues the global conversation from *Interspirituality: The Heritage*, honoring the 25th anniversary of Br. Wayne Teasdale's seminal book *The Mystic Heart*. Teasdale introduced the term Interspirituality to describe a "universal spirituality" found within all the world's religions.

Volume 1 offered a historical tapestry of the emerging interspiritual experience (1999–2015). Volume 2—*The Future* traces its evolution from 2015 to the present, spotlighting the next wave of voices, visions, and initiatives of this global phenomenon. The contributions reflect a world in urgent transformation—socially, ecologically, politically, and spiritually—and affirm Interspirituality as a dynamic, adaptive response to our global challenges.

Over 120 contributors explore how interspiritual consciousness meets the call for planetary regeneration, sacred activism, ecological justice, and holistic education. Through newly written articles, reflective essays, curated excerpts, and personal pointings, the book engages themes such as Indigenous wisdom, sacred convergence, spiritual community, and the synergy of science and spirituality.

Together, they illuminate a future shaped not by domination, but by partnership, compassion, and the shared wisdom of the heart.

The Way of Unity

Essential Principles & Preconditions for Peace

Robert Atkinson, PhD

Description

A Global Vision with Local Strategies for Planetary Flourishing

Imagine a world where every person feels seen, valued, and connected, a world not driven by fear and division, but by compassion, cooperation, and unity... This vision is not just a dream; it's a path we can choose. The Way of Unity is an invitation to discover something greater than ourselves—a growing, expanding, organic renewal process aligned with evolutionary forces.

Upon a framework of hidden wholeness, this book explores an emergent process, the closest thing we may have to a systematic, globally scalable, evidence-based model of social action that works for everyone. For over a century, thousands of communities worldwide have been building the elements of a more just and peaceful society by nurturing the patterns of coherence within us. Humanity is its own mycelium network, weaving its inherent wholeness, expanding its circles of unity. This is our hope for the future.

Praise

The vision projected by this book could be the spark that ignites the ever-present, even if widely neglected, flame of peace in the heart of humanity.

A Unifying Worldview for Conscious Collaboration with contributions from Jude Currivan, Duane Elgin, Ervin Laszlo, Lynne Twist, Ken Wilber and fellow thought leaders who share the science and spirit of how our interconnection can serve our global family and change the world.

The Holomovement is wholeness in motion and compassion in action working together for the betterment of all. The Holomovement has always existed; as we enter this unitive age, its evolutionary impulse is uniquely alive in each of us, weaving together the consciousness of the whole. It is a call to unity, but not uniformity. Our evolution and emergence of inherent potential depend upon the planetary-scale synergistic relationships and dynamic coevolutionary partnerships we're nurturing in these unprecedented times. The Holomovement embraces this diversity, inviting you to participate in catalyzing a social movement to balance and harmonize our relationship with each other, the planet and cosmos.

Praise

The Holomovement is an apt name representing the diverse sociocultural movement toward a just, fulfilling and sustainable human presence on Earth in accordance with the cosmological parameters of the physical universe. - **Terry Patten**

The people who are reading this right now, I think you all know yourself to be the pilgrims and the parents of this emerging era. No old formulas or stopgap solutions will suit for this new world to be born. - **Jean Houston, Ph.D**

May the Loveforce Be With You

Kali-Ki Reiki: Healing Through Divine Mother & Yogic Wisdom

Rajashree Maa

Description

May the Loveforce Be With introduces a new lineage in energy healing, Kali-Ki Reiki™, that was revealed to the author, Joni Dittrich, Ph.D. (Rajashree Maa), in a series of mystical encounters with the Divine Mother appearing as the goddess Kali Maa. The book brilliantly tells the stories of these encounters and presents the healing symbols that She revealed, explaining how these symbols can be used both for mind-body healing and spiritual awakening, or what Rajashree Maa calls "wisening."

While traditional reiki systems also use symbols to transmit healing energy, the symbols introduced in Kali-Ki Reiki are seen as unique, three-dimensional, active, intelligent forms of light that tap into certain universal energy frequencies that are particularly attuned to the evolving conscious awareness as well as the personal and societal dilemmas of our current times. The fact that these symbols were revealed by Divine Mother to a woman in this era points to a need in today's world to re-establish our connection with the feminine forces of nature and spirit. The healing energy transmitted through these symbols is called Loveforce, which is considered to be the manifesting, creative, and healing power of the Limitless Love that is the Source of all that is.

Praise

A powerful book on the science of spiritual transmission. It can be read again and again, each time to reveal something new.

Science, Being, & Becoming

The Spiritual Lives of Scientists

Paul J. Mills, Ph.D.

Description

2023 Winner! Gold Nautilus Book Award!

Spirituality is the Final Frontier for Science

Contrary to popular belief, not all scientists are materialists fervently discounting the spiritual. *Science, Being, & Becoming* is about the spiritual lives of scientists, their actual transpersonal, metaphysical and mystical experiences. The book's material is derived from intimate interviews with over 30 scientists as they describe the circumstances under which they had the experiences and how those experiences changed their consciousness, transformed their belief systems about the nature of the world, and changed their scientific work.

Praise

Science, Being, & Becoming dismantles the fallacy that scientific investigation and spiritual exploration are at odds, instead illuminating them as two sides of the same coin. I am moved by the insights and the courage of Professor Mills and those academics and scientists who have shared their experiences and revelations, which beautifully express that what we are on the inside - mind - and the ultimate reality of the universe on the outside - matter - are one.

- **Rupert Spira**, author, *The Nature of Consciousness: Essays on the Unity of Mind and Matter*

The artificial barrier between the realm of science and the realm of spirit is long overdue for demolition. Paul Mills, who treads easily in both domains, makes a major contribution by shifting the focus from belief, assumption, and dogma to the more revealing, and scientifically fruitful, area of direct experience. - **Philip Goldberg**, author, *American Veda: From Emerson and the Beatles to Yoga and Meditation, How Indian Spirituality Changed the West*
