Munu (5+)

The most special rhino in the world!

By Shirley Galligan, Illustrated by Zoe Barnish

Munu is a story of hope in the face of adversity. As one of the world's rarest black rhinoceros, his story, as the most special rhino in the world, will appeal to many, with its humorous tone as well as promoting the charity's ethos of integrity and kindness.

Munu's story raises the profile of the charity's ambitious vision for the future of global wildlife conservation, at the centre of which, are children today, the conservationists of the future.

Holy Moly (4+)

We Will Teach You How You Can Achieve Whatever You Want

By Roberta van Melick

Illustrated by Valentina Art

Holy Moly is created and powered by children.

Children are the future and for them we want to build a lifestyle focusing on teaching children to grow in their inner world so it will bloom in the outer world. We know everything happens from the inside and if you teach children at a young age that they are amazing, that they can achieve whatever

they want, to dare to dream big that it will manifest. It will give them positivity, confidence, creativity and most importantly self-acceptance.

We do this through our children's book series: Holy Moly, short stories where (modern) families teach their child that they can create whatever they want through affirmations. Including a manifestation guide for their family, the whole family will benefit from it.

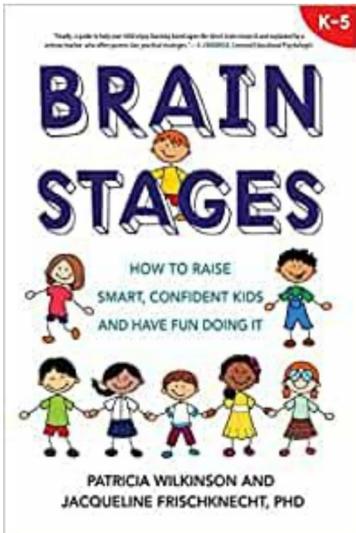

Holy Moly is more than only a book series, we also have a product line with the first (worldwide) affirmation dolls (with sound) which support children to affirm every day.

Brain Stages

How to Raise Smart, Confident Kids and have Fun Doing It

By Patricia Wilkinson and Jacqueline Frischknecht, PHD

Enjoy your kids more and stress less!

Brain Stages is the ultimate leg up for parents and caregivers in today's complicated, competitive world. A grade-by-grade guide through the formative elementary school years, this book will show you how to have fun with your kids as you help them grow into successful, well-adjusted humans.

Drawing from thousands of hours of research and decades of education experience, veteran teacher Patricia Wilkinson and learning expert Jacqueline Frischknecht, PhD, offer tools and advice that will boost your child's brainpower, social skills, and love for learning.

In Brain Stages, you'll discover:

- How brains develop and what you can do to help your child succeed
- The best form of praise that builds confidence and self-esteem
- Surefire ways to help a struggling child get caught up in math or reading
- How to get your gifted child's needs met
- Ideas for helping an anxious child relax for better learning
- Tips for teaching kids the art of building healthy relationships
- Over 150 fun games and activities to engage and nurture young minds

Whether you have a child who has fallen behind, an extra smart kid you want to keep intrigued, or a grade-schooler who could use some help getting along with others, *Brain Stages* will give you the information and support you need to be an effective parent and enjoy your child-raising journey.
